Sprint 1 Report

Product Name: Share Yourself Artist

Team Name: SYA React AWS

10/21/2018

Actions to STOP doing:

- We should stop scrumming at night and then the next morning, because there is not much of an update between those times.

Actions to START doing:

- We should start communicating more when working together, because we can help each other work through our problems.
- We should start scrumming everyday in the morning whether in person or through slack, because scrumming is important and keeps the group informed.

Actions to KEEP doing:

- We should keep communicating through slack, because it makes it easy to communicate quickly.
- We should keep meeting in person to work together, because it is easier to focus in a group.

Work Completed:

User Story 1: As a developer, I want to learn the technologies necessary when developing.

Work not Completed:

User Story 2: As an artist, I need to Sign in/Sign up for an account so that I can create and access an artist account

User Story 3: As an artist, I need to upload an image to S3 the AWS file storage system so that I have an online portfolio of submittable art.

User Story 4: As an artist, I need to purchase credits (PayPal) so that I can guarantee feedback from businesses on art submissions.

User Story 5: As an artist, I need to submit art so that I can send my art to businesses that can potentially choose to feature it.

User Story 6: As an artist, I need to receive feedback so that I can receive and view each business's feedback on my art submissions

User Story 7: As an artist, I need to update my profile so that I can update contact info and other relevant information for businesses and other artists

Work completion rate:

- Total number of user stories completed: 1
- Total number of estimated ideal work hours: 10 hours/week * 2 weeks * 6 people = 120 hours
- Total number of days during the prior sprint: 14 days
